[Tipp: Protostar Template - Hover-Farbe der Twitter Bootstrap Untermenü-Einträge anpassen](#)

In der index.php der Template Kopie den style Eintrag anpassen, ab ca Zeile 106

Zeile 115-120

```
.navbar-inner, .nav-list > .active > a, .nav-list > .active > a:hover, .dropdown-menu li > a:hover,  
.dropdown-menu .active > a, .dropdown-menu .active > a:hover, .nav-pills > .active > a, .nav-pills >  
.active > a:hover, .btn-primary
```

```
, .navigation .nav-child li > a:hover, .navigation .nav-child li > a:focus, .navigation .nav-  
child:hover > a
```

```
{  
    background: <?php echo $this->params->get('templateColor');?>;  
    background-image: none;  
}
```
